## WHAT WE DO

# Keep Your Databases Healthy, Fast & Secure

Proactive database care from a team with over 25 years of hands-on experience — so you can focus on running your business.

**Health Checks**

A thorough review of your database environment to spot potential issues before they cause problems for your business.

**Speed & Performance**

We find and fix the bottlenecks that slow things down, so your systems respond faster and your team wastes less time waiting.

**Security Reviews**

We check your databases are properly protected, identify any vulnerabilities, and make sure your data stays safe.

**Disaster Recovery**

We make sure your backups actually work and that you have a clear plan in place if something goes wrong.

**Ongoing Care Plans**

Regular monitoring and maintenance so your databases stay in good shape month after month, not just after a one-off fix.

**Clear Reporting**

Straightforward reports that tell you what we found, what we fixed, and what to prioritise next — in plain English.

## WHY EPLATFORMS

## Why Businesses Choose Us

**Platform Independent**

We recommend what's right — no bias, no vendor lock-in.

**Results First**

We measure success by your results, not ours.

**Long-Term Partners**

Most clients have been with us for years, not months.

**Straight Talk**

No jargon, no overselling, no hidden costs.
